

Do not let the "Consumer Bankers Association" be allowed to weaken the current Wisconsin No Call law! This is one of the best laws that has been passed recently. It would be far smarter to make the federal law as stringent as ours. This is not a "free speech" issue. Our phones are in our homes, we pay for them (cell phones also fit this category, we pay for them). We have every right not to be bothered in our own homes by companies who want to sell us things we are not interested in purchasing, or services we don't wish to receive. It is absolutely no different than a sales person arriving at our door to sell us the same things. We have a right to ask them to leave and not come back. Once we have registered on the No Call list, we have notified all companies that we do not want our privacy disturbed by their calls.
